# Strategy and development

---

The Strategic plan of the Faculty of Medicine in Hradec Králové for the period 2021-2025 builds on the long-term goals of the Faculty from previous periods, as evidenced by the formulation of the Faculty's vision. At the same time, it specifies the strategic goals of future development in accordance with the demands placed on the Faculty's activities by the current times and the issues of contemporary social development.

The Faculty of Medicine in Hradec Králové is proud to be part of Charles University. Our strategic plan develops the ideas of the university strategy, complements them and concretizes them for the conditions of the Faculty of Medicine HK. It specifies eleven strategic priorities in which all essential activities in the period 2021-2025 are thematically captured.

An integral part of the Strategic Plan is an annex in which the strategic priorities are elaborated into objectives and measures for their implementation. The resulting indicators and description of outcomes specify the goal towards which further development at the Faculty will be directed.

## **Mission of the Faculty**

Teaching and education of future doctors and health care professionals prepared for the health care profession. To act as a teaching, scientific and social centre of European importance.

## **Vision of the Faculty**

The Faculty of Medicine in Hradec Králové wants to be a faculty that:

- Educates graduates well prepared for practice
  - Performs scientific and research activities at an international level
  - Creates a collegial and creative academic environment
  - Supports internationalization in teaching and scientific activities
  - Reflects the needs of society while respecting academic and democratic principles
- It is an integral and respected part of Charles University.

The latest long-term plan and its annual update are published.
