
Graduates

Are you graduated but you don't want to say goodbye to the faculty yet?

Join the Alumni Club so you can continue to follow what is happening at the faculty, participate in events, lectures or webinars we organize for you, take advantage of various benefits and generally stay in touch with your alma mater.

You can register for the alumni club [online here](#).

[Website of the Alumni Club](#)

The Alumni Club was founded at the Faculty of Medicine in Hradec Králové in 2020 and its aim is to establish and maintain close contact with the graduates of the Faculty and thus create a strong link with their alma mater.

By joining the club, all graduates gain the opportunity to benefit from both intra-university benefits and benefits resulting from cooperation with external suppliers. The most important benefits include access to CU libraries and professional information resources, as well as discounts on stays and travel, culture, sports, leisure, etc. In addition to benefits, graduates can also participate in the organisation of activities for their colleagues or take part in such activities. These activities include, for example, lectures, social gatherings, sporting or cultural events, competitions, etc.

A separate website www.absolventlfhk.cz has been established for the Alumni of the Faculty of Medicine of Hradec Králové. On this website, it is possible to register for the alumni club, and those interested can find more detailed information about the benefits of registration or job offers. They can view tips and options on how to progress after graduation, get information on alumni and faculty related news or information on upcoming events. The site includes, of course, a photo gallery of events and inspirational stories from our alumni or interviews with faculty.

Are you a graduate of our faculty and would you like to share your experience and knowledge?

Please contact us at alumni@lfhk.cuni.cz, we will be happy to discuss possible cooperation with you.

We conduct written interviews with collaborating alumni for the [alumni website](#), record interviews for the [faculty podcast](#) or invite them as guests to lectures, discussions or talks organized for students, staff and the public.
