## Project MISS4Health

**Project Title:** MISS4Health - Micro-credentials in Soft Skills for Healthcare Professionals and Students

### Project Annotation:

The objective of MISS4Health project is to improve competences in soft skills for healthcare professionals and students using a modular Massive Open Online Course (MOOC) based on micro-credentials at the EU level that certifies these competences. MISS4Health includes four work packages covering curricular design, content creation, micro-credentials establishment and interactive resources implementation, as well as a double loop validation that assures the overall quality of the MOOC. Additionally, management, quality, dissemination, and sustainability plans will conduct the project and contribute to its widespread impact. And finally, several intangible results will be obtained, such as feedback and motivation of end-users and stakeholders.

**Project ID:** 2023-1-CZ01-KA220-HED-000159335
