

VERIFICATION of the DIPLOMA

- you need to find out the verification requirements for a particular country where you want to practice medicine/dentistry, the verifying process may be different for each country, some of them need superlegalization, some notarization only and some countries may not even need it. Some of them need the original to be verified, some “just” the copy.
- if the original is not required, not to spoil your original Diploma, have the Latin Diploma copied and the copy officially verified!!!
- get the English translation of your Diploma or the notarized copy (dependent on the country) after having all the stamps. If you get the English translation before obtaining the stamps (that are in Czech only), you will have to get the stamps translated separately on top, therefore will pay twice, need more time, etc.

NOTARIZATION OF THE DIPLOMA
