

How to connect to the eduroam on iOS (iPad, iPhone)

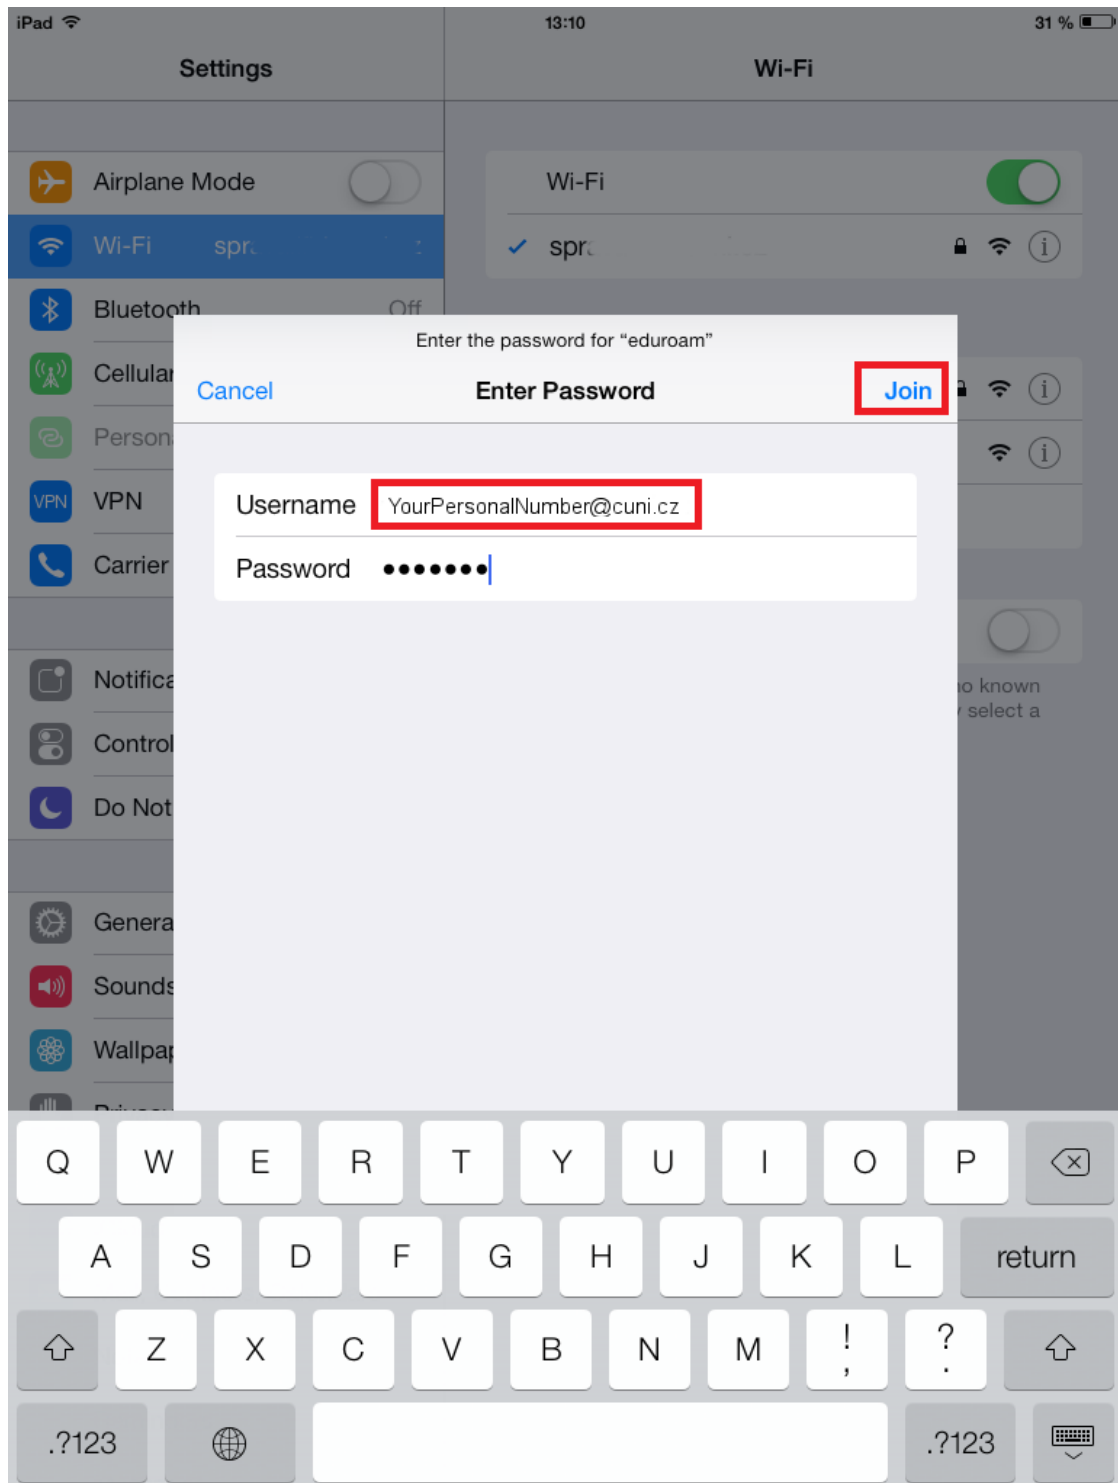

This is simplified guide to set connection without verifying server certificate. Different versions of iOS may vary, so guide may not be accurate and 100% operational.

This guide has been tested on iOS 7.0.4.

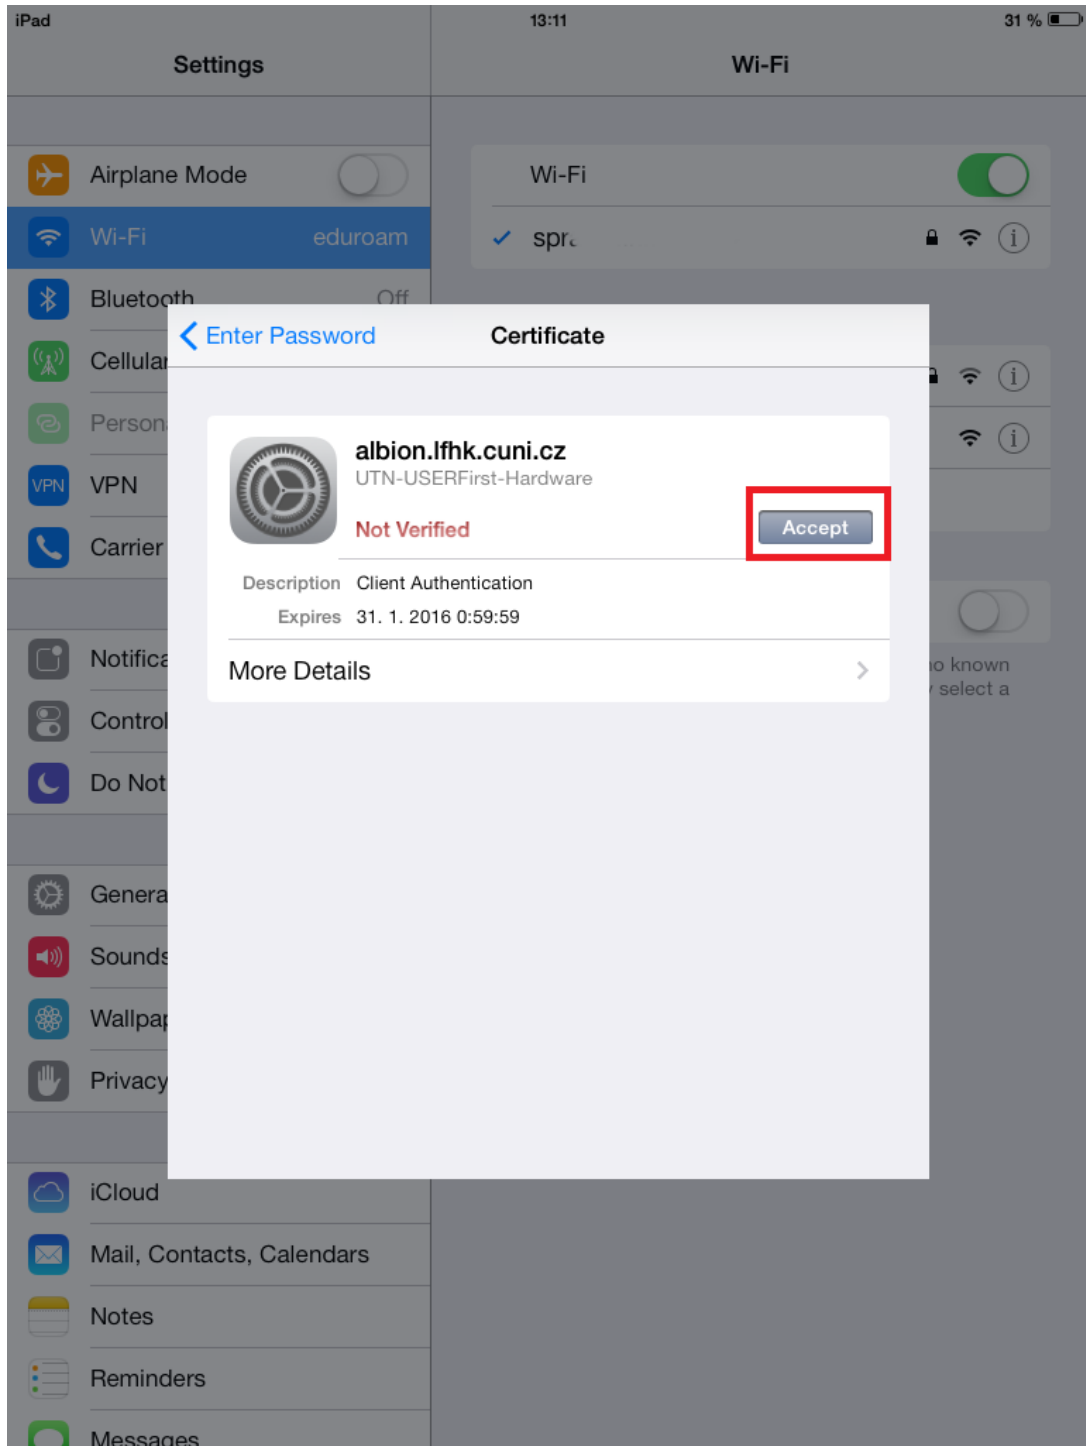

- 1) Go to the **Settings** select and turn on **Wi-Fi**. Tap to **eduroam**.

- 2) Write your username in shape **YourPersonalNumber@cuni.cz** (for example 12345678@cuni.cz) and password for eduroam. You can create an eduroam password in CAS UK system, address <https://ldap.cuni.cz>. User guide for password creation is at <https://www.lfhk.cuni.cz/Information-Systems/Eduroam>. Your personal number is on your ISIC card under your photo. Tap to **Join**.

3) Tap to **Accept** for accept server certificate.

4) Eduroam should be connected now .

If you will have some problems with connection, contact your network administrators.
