Att: The request for cooperation in out of clinic practical training

Dear Madam, dear Sir.

We would like to turn to you with following request.

The students of the 5<sup>th</sup> year of undergraduate study programme "Dentistry" at the Faculty of Medicine, Charles University, Hradec Králové, Czech Republic, are to pass four weeks of the practical dental training in a dental office of a dental practitioner at the beginning of the summer term in this academic year, according to the recent curriculum. These lectures of practical training help us significantly in meeting contemporary EU requirements for dental education.

We are fully aware of severity of our task. Despite of this, we would like to ask you to allow our students to perform traineeship in your dental office if they will beg you. We consider such study stay in the private dental office is very valuable experience bringing their future occupation near to them significantly.

The list of majors you allow to conduct is in your competence. Our students are able to perform uncomplicated treatment in restorative dentistry including endodontics, periodontology, minor oral surgery, paedodontics, prosthetics, and preventive dentistry, as well.

We would like to thank you very much for understanding and prospective cooperation in realization of this important part of the undergraduate training of our students. The cooperation between your office and the Faculty of Medicine in Hradec Králové, will happen on the basis of the agreement entered for this purpose.
