

LINES ABOUT ME

I'm considered as an "**Outstanding Dentist**" and I received an award on the 19th December 2015 in Mumbai, India, due to my contributions resulting from my academic studies, research work and clinical practice. The lines that follow gives a brief view of me and my achievements.

I acquired a Bachelor's degree in **Oxford Dental College, India** and then the **Masters cum Doctoral degree in Charles University in Prague, Europe.**

During my Post-graduation studies, I had written a "**Text book of Orthodontics for Undergraduates**" in English, which was well appreciated and subsequently translated to Czech language.

Since, I was the bright Student of the Charles University during my Post-graduation studies, I had received good support and encouragement with wide opportunities to attend several Conferences and Seminars representing the Charles University. I also received the financial support by way of scholarships and grants to visit other countries viz., **Singapore, United Kingdom, and United States of America.** This has given me a vast clinical knowledge in the field of Orthodontics, including the effective advancements that took place during the period.

I'm considered to be the young student, who acquired a title of **PhD** after the completion of my Doctoral studies, in India and abroad.

Currently, I'm an Orthodontic consultant, carrying my clinical practices with utmost perfection and satisfaction to myself and to my clientele. I have treated more than a thousand of Orthodontic cases and received great appreciation from my clients, which has given me high amount of pleasure and happiness in expected manner.

My article on "**Root resorption during Orthodontic tooth movements**", which was **published in the European Journal of Orthodontics** has given me a global recognition.

The above mentioned points is illustrated in my PPT, through photographs and certificates received during the period.
